Quick description	To update the techlabs website to be more accomodating and be able to allow certain groups of users to access and filter material relative to their needs.

Status item	Status up to last week	Planned for next week
Scope	HTML Top panel rendering Scope document finalisation Django back end setup	Navigation Search Bar Article Previews Setup ERD and Article Databases
Time	Iterations are completing on time. Deliverables timeline is being met.	If functionality of search and navigation is complete then work for Week 7 can begin
Quality	Quality is good as most deliverables are being released with heavy testing.	Tests should be accompanied with the search functionality and navigation routing.
Planned Activities	Complete Presentation Slides for Demo Start work on Report 1 HTML set up and Django backend	Develop navigation and search bar Complete presentation slides Finish Report 1

		Code article previews Setup ERD and article databases.
Achievements	The group is on schedule and the React fronted is operating well. Components are integrating well. Scope document completion was smooth.	Complete the search bar, navigation and database table before the end of Week 6 so work can start on the WYSIWYG editor.
Major deliverables	Complete the scope document Begin work on basic HTML	Search bar for articles. Navigation
Major issues	Scope document may not be sufficient.	Need to stay on schedule during this time as a lot is due.
Major risks	Scope is not signed off on.	Late deliverable in time for report and presentation.
